SAFE® Products - Precision for laboratories handling large sample volumes.

Safe handling prevents contamination and preserves sample integrity.

Rack Holder

+

1-Channel auto De-/Capper

- Firm hold of racks - no slipping, no tilting - even with intensive use.
- Robust design - High-quality anodized aluminium for longlasting use in the laboratory.
- Perfect fit for SBS standard racks.
- Quickly open and close individual tubes at the push of a button.
- Ergonomic handling for a smooth work flow.
- Supports all tubes – interchangeable magnetic caps and adjustable torque ensure consistent sealing.
- Made of anodized aluminum for long-lasting use in the laboratory.
